

```
import cv2
from google.colab.patches import cv2_imshow # for displaying images in Colab
```

```
# Read image
img = cv2.imread("/content/smoothing data.png")
```

```
# Example: Apply Gaussian Blur filter
filtered_img = cv2.GaussianBlur(img, (7, 7), 0)
```

```
# Show image inline in Colab
cv2_imshow(filtered_img)
```

```
# Save filtered image
cv2.imwrite("filtered_image.jpg", filtered_img)
print("Filtered image saved as 'filtered_image.jpg'")
```

Filtered image saved as 'filtered_image.jpg'
